## Minimum Security

### Notebook Security Cable

The first line of defense against opportunistic theft or unauthorized movement for notebook computers, screens, projectors and all office equipment

- High strength vinyl-coated aircraft-style steel cable is looped on one end and secures to the office equipment using a die-cast metal anchor plate.
- The die-cast metal anchor plate provides over 2500 lbs. of adhesive strength.
- Removing locking cable allows complete mobility.
- Steel cable is vinyl-coated to protect desktop against scratching
- High quality pick resistant lock
- Simple installation can be performed without the use of any tools.
- Model Include  
One (1) 72-inch cable  
Cable lock and two (2) keys  
Bonding glue  
Cleaning packet  
Installation instructions
